EDUCATION

B.Tech in Artificial Intelligence and Machine Learning — **Expected Graduation: 2027**
SRKR Engineering College, Bhimavaram, Andhra Pradesh — CGPA: 8.84

Intermediate (MPC) — **2023**
Sri Chaitanya Junior College, Palakollu, Andhra Pradesh — 89.8%

Secondary School Certificate (SSC) — **2021**
Bhashyam (E.M) High School, Palakollu, Andhra Pradesh — 100%

SKILLS SUMMARY

Languages: Python, Java, HTML, CSS, JavaScript
Platforms: Visual Studio Code, Jupyter Notebook
Soft Skills: People Management, Excellent Communication

WORK EXPERIENCE

Contributor – GirlScript Summer of Code (GSSoC) — 2025

- Implemented interactive visualizations for **8+ core operations** across data structures including Stack, Queue, Linked List, and Binary Tree.
- Developed step-by-step animations for **10+ insertion, deletion, and search workflows**, covering common and edge cases.
- Built a complete **Quick Sort visualization**, implementing **3 major phases**—pivot selection, partitioning, and swapping—with pseudocode.
- Collaborated using **Git/GitHub workflows**, contributing through **multiple pull requests**, merge conflict resolution, and code reviews.
- Updated project documentation and search pages to reflect **5+ newly added visualizations and algorithms**.

PROJECTS

AI-Powered Credit Delinquency Risk Prediction | LINK — Tata iQ Virtual Internship (Forage)

- Built and evaluated **3 machine learning models** (Logistic Regression, Decision Tree, Neural Network) for credit delinquency prediction.
- Achieved up to **87% precision** through feature selection and model tuning.
- Evaluated performance using **4 metrics**—precision, recall, F1-score, and confusion matrices—to balance risk detection and false positives.

Disaster Preparedness & Response Education System | LINK — Full-Stack Project
Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT authentication

- Developed a full-stack disaster education platform with **3 user roles** and interactive learning modules.
- Implemented **JWT-based authentication** and secure routing across **multiple protected endpoints**.
- Designed **RESTful APIs** and structured MongoDB schemas to support scalable content delivery.
- Integrated **real-time alerts and dashboards** to track preparedness and community updates.
- Organized educational content into **multiple structured modules** to improve usability and accessibility.

CERTIFICATES

- Free Python Course – *GeeksforGeeks*
- TCS iON Career Edge – Young Professional Program – *TCS iON*
